## NI Requirements Gateway Coupling Series

Publish Date: feb 06, 2009 | 1 Ratings | 4.00 out of 5 |  [Print](#) | [Submit your review](#)

### Overview

[Requirements Gateway Home](#)[Coupling Series Home](#)[Microsoft Word](#)

Engineers may use a variety of different software tools to specify requirements and cover those requirements in any given project, and the software chosen may differ even further between projects. As a result, a software solution for requirements management must be able to integrate with a number of different specification and development software. The NI Requirements Gateway Coupling Series discusses how NI Requirements Gateway uses the dedicated interfaces of a number of different specification and development software to automate the requirements management process.

To begin, select a software below, or [click here](#).
